## Finding Our Way

Hi Friends.

What I hear, as pattern, from many colleagues and friends, family and neighbors, is the roller coaster nature of living now. What I hear people naming is how it all shifts with surprising rapidity. “Mostly good” becomes “yikes” or “barely making it.” And then it changes. Again, rapidly.

I believe we are all called to be in continued deep learning now. And connection. And kindness. And more able to lean to the edges of great turnings. I believe that many of us are called to go deeper within. We spend so much effort trying to influence the outer when what’s missing is a deeper ground from the inner.

Here’s to wisdom-making for all of us. A few resources are on the left.

And welcome, from me to you, to go together.
